WORK EXPERIENCE

Accenture

2023 - Present

Technology Architecture Sr. Analyst

- Translated functional specifications into detailed technical specifications.
- Developed and implemented new frontend features for production applications.
- Built and maintained end-to-end automated tests with Playwright to ensure feature reliability.
- Conducted code reviews to uphold code quality standards and mentor junior developers.
- Served as a subject-matter resource for developers, resolving questions on key project components.

Cafe24 Philippines

2021 – 2023

Senior Web Developer

- Developed new features, improvements and bug fixes for the numerous internal and client-facing applications.
- Investigated and resolved issues in mission-critical internal systems, including payroll, to prevent disruptions to core business processes.
- Led, guided, and coached a team of junior developers in delivering high-quality products.
- Designed technical architecture to guide implementation across team projects, ensuring scalability and alignment with requirements.
- Owned deployment planning for software releases, coordinating changes to ensure smooth production rollouts.

Curo Teknika Inc.

2017

Application Developer Intern

EDUCATION

Polytechnic University of the Philippines

2014 - 2018

Bachelor of Science in Computer Science
