PROFESSIONAL EXPERIENCE

Accenture

Technology Architecture Senior Analyst | 2023 – Present

- Translated complex functional requirements into detailed technical specifications for enterprise applications.
- Developed production-grade frontend features for global, business-critical systems.
- Built and maintained automated end-to-end test suites using Playwright, improving release stability.
- Performed code reviews and mentored developers to enforce engineering best practices.
- Served as subject-matter expert for core application modules, accelerating delivery timelines.

Cafe24 Philippines

Senior Web Developer | 2021 – 2023

- Led development of HR, payroll, scheduling, and internal management systems supporting company-wide operations.
- Designed scalable architectures using Laravel, Vue.js, React, and MySQL.
- Owned deployment planning and production releases with minimal downtime.
- Mentored junior developers through code reviews and technical guidance.

Web Developer | 2018 – 2021

- Developed e-commerce rewards systems, shipping eligibility tools, and analytics dashboards.
- Implemented Redis caching and background jobs to improve system performance.
- Built reusable Composer packages to modernize legacy platforms and enable secure SSO.
- Integrated OAuth 2.0 APIs and internal automation platforms.

Curo Teknika Inc.

Application Developer Intern | 2017

- Developed time-tracking and payroll computation systems using Zend Framework and MySQL.
- Implemented attendance processing and salary calculation features.
